### **SPIRALX ANNOUNCES APPOINTMENT OF WAUKESHA-PEARCE INDUSTRIES AS DISTRIBUTOR FOR BTEX ELIMINATION SYSTEMS**

HOUSTON, TEXAS – December 16, 2019 – Spiral X LLC is pleased to announce the addition of Waukesha-Pearce Industries, LLC (“WPI”) as a Distributor for our BTEX Elimination Systems in North America.

WPI, a family owned and operated company, has been supplying dependable equipment, parts, and service to the oilfield since 1924. Spiral X, LLC’s principal businesses are stainless steel air coolers for corrosive environments, BTEX elimination systems and emission products for natural gas dehydrators, amine plants, combustors, VRU’s, and various compressor components including, but not limited to, skids, bottles, and panels.

“This new distribution partnership with Waukesha Pearce Industries will now give immediate availability for our products, as well as superior aftermarket services, to all the oil & gas operators”, said Bryan Holland, CEO of Spiral X LLC.

#### **About Spiral X LLC**

Spiral X LLC is a leading designer and manufacturer of heat exchange technology and environmental products. The company owns and operates a 70,000 ft<sup>2</sup> ASME code manufacturing facility in Fate, Texas, integrating engineering, procurement, manufacturing, and quality control disciplines. Plans are to obtain the ISO 9001 certification in calendar year 2020. Recognized in the marketplace for its innovation and its superior products, Spiral X LLC serves a number of upstream and midstream customers – from small independents to major global operators.
