Komatsu Distributors

## ***The Komatsu Fast Track Program:***

The heavy equipment industry has become one of the world's most technologically advanced fields with a high demand for skilled technicians who diagnose, repair, test, and perform maintenance on these high-tech machines.

Komatsu America Corp. is a subsidiary of Komatsu Ltd, which is the world's second-largest manufacturer and supplier of earth-moving equipment. They specialize in construction, mining, and compact construction equipment. Komatsu offers top-notch parts and service programs for their equipment through their distributor network.

OSU Institute of Technology offers the first of only two Komatsu Advanced Career Training programs and the only introductory training certification program for Komatsu America Corp in the country. The program's students learn from faculty with industry experience and training on state-of-the-art equipment.

Sponsorship in the Komatsu Fast Track program also means that you have met the minimum qualifications needed to be employed by a Komatsu America Corp distributor and will receive certifications to make your career a success.

## INSTITUTE OF TECHNOLOGY

### Oklahoma State University Institute of Technology Komatsu Fast-Track Program CONTACT PERSONS

#### ***PROGRAM OBJECTIVE***

To provide a path for Komatsu Dealers to send technicians through 9 Komatsu-specific classes in a short amount of time. Komatsu will provide certification. This eliminates Dealer internal trainee programs for new technicians from local technical colleges, the military, etc.

#### **Technician Eligibility**

##### **Technicians must meet one of the following:**

- Recent graduate from an accredited Technical College Diesel Program. An official transcript will be required to be submitted.
- Mid-career hire with five or more years of experience as a heavy-duty diesel technician with a recognized equipment manufacturer. (Cat, John Deere, Volvo, Case, etc.)
- Transitioning military with appropriate experience in hydraulics, electrical, mobile equipment maintenance, etc.

**Note: The Fast-Track program will not replace the OSUIT Komatsu ACT 2-year program.**

#### **Technician Requirements**

- Be fully sponsored by a Komatsu Dealership and be a full-time employee.
- Sponsoring Dealer responsible for Fast Track Program cost.
- Sponsoring Dealer provides full pay & and benefits for the duration of the program.
- Sponsoring Dealer provides laptop, PPE, etc.
- Possess a clean, valid driver's license and pass applicable pre-employment screenings.
- Have the appropriate tool set prior to the start of the program. The equivalent of the toolset required for the Komatsu ACT Program.
- Complete Komatsu Foundation and Advanced classes prior to registering for the program.

## **WPI will provide the following:**

- Technician wages and benefits while attending classes at OSUIT
- Tuition
- Dorm Rooms
- Meal Plan
