

Waukesha Pearce Industries

The year was 1924. The place was Southeast Texas - the heart of Texas oil country. Louis Pearce Sr. had a vision of how to help shape and grow a critical industry and was committed to finding the best ways to meet his customers' needs and win their loyalty and respect.

Almost one hundred years later, that vision has become Waukesha-Pearce Industries. Four generations have upheld his commitment and are preparing for the future – WPI's next 100 years.

WPI Energy and Generac Industrial Power

WPI has been an industrial distributor of Generac energy systems for over 20 years. We provide sales, service, parts, and turnkey installation for various commercial, industrial, and life-critical applications. With diverse generator options, high-tech mobile products, and cutting-edge transfer switches and accessories, we ensure power is always available today and tomorrow.

**Your character
is often judged
by whom you
walk with.**

Notable Start-Ups in the early 1920s:

- Ace Hardware
- Duracell
- Lowe's
- Metro-Goldwyn-Mayer
- Occidental Petroleum
- Raytheon Company
- Simon & Schuster
- Quaker State
- Walt Disney Company

Reliance for
today. Resilience
for tomorrow.

NATURAL GAS GENERATORS – 10KW-1000KW

Continuous and Practical Power Resilience

With extended run times, cost-effective engines, and environmentally friendly emissions, WPI's Generac clean-burning natural gas generators can be used to meet local code requirements and each business's unique backup power needs.

Natural Gas (Industrial) 35kW – 1000kW

Nodes: 35kW, 40kW, 50kW, 60kW, 70kW, 80kW, 100kW, 130kW, 150kW, 175kW, 200kW, 230kW, 250kW, 275kW, 300kW, 350kW, 400kW, 450kW, 500kW, 623kW, 750kW, and 1000kW

DIESEL GENERATORS – 35KW-2000KW

The Standard for PowerGen Fuel

Diesel-fueled generators provide business owners with an efficient fueling option for large backup power applications. WPI ensures that each diesel-powered solution meets each company's high-quality standards and the needs of the various applications.

Diesel 10kW – 2000kW

Nodes: 10kW, 15kW, 20kW, 25kW, 30kW, 35kW, 40kW, 50kW, 60kW, 80kW, 100kW, 130kW, 150kW, 175kW, 200kW, 230kW, 250kW, 275kW, 300kW, 350kW, 400kW, 500kW, 600kW, 750kW, 800kW, 900kW, 1000kW, 1250kW, 1500kW, and 2000kW

BI-FUEL GENERATORS – 500KW-600KW

Power and Longevity

Bi-Fuel generators combine diesel fuel's power with natural gas's longevity. They meet the NEC and NFPA code requirements for on-site fuel storage while providing the reliability of natural gas flow during a crisis or extreme weather events. A Bi-Fuel Generator can extend your diesel run times by up to 75% longer.
