

# WPI & Waukesha: Powering Energy With Proven Performance

For over 100 years, WPI has been the trusted authority on Waukesha engines – powering drilling, gas processing, pipelines, and power generation across North America. As the longest-tenured and largest Waukesha distributor, WPI delivers unmatched expertise, reliability, and support.

## When it comes to Waukesha, customers turn to WPI for a reason:

- Industry's most experienced professionals
- Largest inventory of parts and rebuilt components
- Broadest service footprint in every major shale play
- Extensive facility network for field support

## WPI stands behind Waukesha's toughest, most flexible engines:

- 275GL+, VHP, mobileFLEX, and VGF
- **Low emissions:** VHP Series Five leads with 10% lower CO<sub>2</sub>e and 85% lower CH<sub>4</sub> than any engine in its class
- **Fuel Flexibility:** Proven performance across a wide BTU range
- **Built to Last:** Rugged designs made for harsh environments

WPI and Waukesha – we're working every day to design and build engines and programs to power energy with resilience and results. From Gas Engines, Gas Generator Sets, reUp Products, and Digital Solutions; we have you covered.
